

Symeres is one of the leading chemistry CROs in Europe, with over 500 scientists at six locations (Nijmegen, Weert and Groningen in the Netherlands, Prague in the Czech Republic, Oulu in Finland and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry and chemical process R&D for clinical trials.

As part of the increasing demand for our services at our location in Groningen (NL), we are currently looking for skilled and enthusiastic chemists. Do you have a BSc, MSc or PhD degree in Organic Chemistry? Are you a talented and creative chemist with hands-on experience in synthesizing complex molecules? Would you like to join a dynamic and international team of synthesis experts? If so, then please apply for one of the following vacancies:

Research Scientist

(M/F) Full time

We are looking for both beginning and experienced organic chemists with a PhD degree. The candidates should be able to carry out complex organic synthesis projects independently. Experience with complex, multi-step (natural product) syntheses, medicinal chemistry or process R&D and tech transfer is an advantage.

Associate Scientist

(M/F) Full time

We are looking for both beginning as well as experienced synthetic organic chemists with technical (BSc level) or academic (MSc) training. As an Associate Scientist you work in the laboratory, alone or as part of a team and you are responsible for the correct and safe execution of your projects.

Qualifications

For these positions, we are looking for enthusiastic, pleasant persons who meets the following criteria:

- You have a BSc, MSc or PhD degree in Organic Chemistry.
- You are creative, goal oriented and committed chemist who overcomes challenges.
- You have good communication skills in English, both spoken and written.
- You are accurate, can overcome challenges and are quality oriented.
- You can work independently and have a collegial attitude.

Job offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in a position? And do you meet the job requirements? Please send an email with your CV and motivation letter to our HR Manager Marga Vos by email: marga.vosensing@symeres.com. For substantive questions please contact Mark Verhaar (Director of Operations) at telephone number: +31 50 5757272.
