

Symeres is one of the leading chemistry and drug discovery Contract Research Organizations (CROs) in Europe, with over 500 scientists at six locations (Nijmegen, Weert and Groningen in the Netherlands, Prague in the Czech Republic, Oulu in Finland, and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies worldwide. Our Nijmegen location (previously called Mercachem) specializes in organic chemistry, with the following expertise areas: synthetic chemistry, medicinal chemistry, parallel chemistry, and drug development process R&D. All our chemists are supported by highly experienced and well-equipped analytical teams.

To support the growing demand for the chemistry services in Nijmegen we are looking for skilled and enthusiastic

Organic Chemists

Full time

Do you have a BSc, MSc or PhD degree in Organic Chemistry or a related discipline? Are you a talented and creative chemist with interest in synthesizing complex molecules? Would you like to join a dynamic and international team of chemistry experts? If so, then please apply for this vacancy. You will work in a team of synthetic chemists and will use state-of-the-art equipment to prepare new molecules for worldwide customers in pharma, biotech and agrochemical industries. The work is not restricted to Symeres Nijmegen, collaborations with other Symeres sites in Groningen, Weert, Prague and Admescope Sweden/Finland belong to the possibilities.

Key Job Responsibilities

- Synthesis of drug-sized molecules (mg to gram scale) including analytical chemistry
- Route scouting and reaction optimization, literature searches
- Reporting to customers (verbally and written)
- Problem solving in synthesis for own and other projects

Qualifications

For these positions, we are looking for enthusiastic, pleasant persons who meets the following criteria:

- You have a BSc, MSc, or PhD degree in Organic Chemistry or a related science.
- You are a creative, goal oriented and committed chemist who overcomes challenges.
- You have good communication skills in English, both spoken and written.
- You are accurate and are quality oriented.
- You can work independently and have a collegial attitude.
- You have the flexibility required in the dynamic world of contract research

This vacancy is open for EU residents only.

Job Offer

An exciting position in a young and dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? And do you meet the job requirements? Please send an email with your CV and motivation letter to our HR manager Thea Scherpenborg by email: hrm.hrm@symeres.com. For questions related to chemistry please contact: Dr. Peter Molenveld (synthetic chemistry), Dr. Rutger Folmer (medicinal chemistry) or Dr. Eric Damen at telephone number: +31 24 3723300.
