

Symeres is one of the leading chemistry CROs in Europe, with over 500 scientists at six locations (Nijmegen, Weert and Groningen in the Netherlands, Prague in the Czech Republic, Oulu in Finland, and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials. All these fields of expertise are supported by highly experienced and well-equipped analytical teams.

For our location in Nijmegen and Groningen we are looking for open applications of skilled and enthusiastic

Organic Chemists

Key requirements

- B.Sc., M.Sc. or Ph.D. degree in Organic Chemistry or a related area in which organic synthesis is the main component
- High motivation and a strong commitment to laboratory work, project delivery and further learning
- Strong communicator, fluent in English both verbal and in writing
- Experienced PC-user, skilled in the use of various chemistry related software packages

This vacancy is open for EU residents only.

Job Offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.
