

Symeres is one of the leading chemistry CROs in Europe, with over 500 scientists at six locations (Nijmegen, Weert, & Groningen in the Netherlands; Prague in the Czech Republic; Oulu in Finland; and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials. All these fields of expertise are supported by highly experienced and well-equipped analytical teams.

As part of an increasing demand for our services at our location in Groningen, we are currently looking for a skilled and enthusiastic

Analytical Scientist

Full-time

As a member of the analytical team, the analytical scientist is responsible for analytical support to the running chemical projects. Daily work includes method development, in-process controls, and final compound purity determinations. The Analytical Chemistry Departments are equipped with state-of-the-art analytical equipment, such as LC-(MS), GC-(MS), SFC-(MS), IR, Karl Fisher, and DSC.

Qualifications

For this position, we are looking for an enthusiastic, pleasant person who meets the following criteria:

- HLO education in analytical chemistry is required; 1–2 years of relevant experience is an advantage.
- Knowledge of analytical method development, optimization, and problem solving is an advantage.
- You are accurate, can overcome challenges, and are quality oriented.
- Good communication skills in English, both spoken and written.
- You can work independently and have a collegial attitude.

Job offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? And do you meet the job requirements? Please send an email with your CV and motivation letter to our HR manager, Marga Vos, by email: marga.vosensing@symeres.com. For substantive questions, please contact our Director Analytical Chemistry, Erik van Echten, at telephone number: +31 50 5757272. More information about the Symeres organization can be found on our website: www.symeres.com
