

Symeres is one of the leading chemistry CROs in Europe, with over 500 scientists at six locations (Nijmegen, Weert, and Groningen in the Netherlands; Prague in the Czech Republic; Oulu in Finland; and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials.

As part of the increasing demand for our services at our location in Weert (NL), we are currently looking for a

Process Engineer

Full-time

The primary focus of the Process Engineer comprises scale-up and commercial cGMP manufacturing activities in the Manufacturing Department. The work is carried out in (extended) dayshift and is done in the multipurpose facilities at the Kilogram Lab and the Pilot Plant. The Process Engineer reports to the Team Leader of Production.

Key Job Responsibilities

- Configuration of the equipment setup required for manufacturing.
- Execution of chemical processing and equipment cleaning via batch record instructions.
- Sampling during process execution.
- Coordination of material flow for raw materials and products to and from the department warehouse.
- Detailed planning of process execution.
- Participates, on a regular basis, in project teams to advise on technical feasibility, scalability, equipment configuration, and EHS aspects of chemical processes (CAPRI meeting).
- Records process execution in batch records, according to good documentation practice (GDP).
- Participates in internal improvement projects supporting EHS and/or compliance initiatives.

Job requirements

- Master's degree plus 1–2 years' experience in fine-chemical processing, or MBO/MTS/VaPro-C plus 3–5 years' experience in fine-chemical industry.
- Theoretical and good working knowledge of all standard manufacturing techniques. Understanding of EHS aspects of chemical processing.
- Experienced in (familiar with) working with quality/ISO/audit/management systems.
- Good written and verbal knowledge of English and Dutch.
