

Symeres is a leading chemistry CRO in Europe, with over 500 scientists at six locations (Nijmegen, Weert & Groningen in the Netherlands; Prague in the Czech Republic; Oulu in Finland; and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for (bio)pharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials. As part of an increasing demand for our services at **our location in Prague CZ** (Běchovice), we are looking for a skilled and enthusiastic

Process Chemist - Organic Chemistry - Full time

Function description

The Process Chemist is responsible for the design and development of new production processes for investigational drug substances. Together with colleagues in the R&D department, QC department, and in consultation with production, chemical syntheses are converted into safe, robust, and effective production procedures that allow for the preparation of drug substances on a multi-kg scale. The products are used in toxicity studies or clinical trials. The procedures are captured in elaborate documentation and are demonstrated on a scale that enables a smooth handover to the production department. An important aspect of the work is the preparation of detailed reports to customers and verbal communication on the progress of the work (in English).

Key requirements

For this function, we are looking for an enthusiastic candidate who meets the following requirements:

- University education in synthetic organic chemistry or technology of organic compounds (MSc or PhD)
- Experience in the pharmaceutical industry; early development of small molecules is an advantage
- Knowledge of generally used analytical techniques, such as HPLC
- Basic knowledge of quality guidelines and Good Manufacturing Practices (GMP)
- Good command of the English language, verbally and in writing; Czech or Slovak is an advantage
- Advanced user of a personal computer (Word, Excel, Outlook, technical software)
- Good organizational skills
- Reliable, accurate, and accountable

Job offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position, and do you meet the job requirements? Please send an email message with your CV and motivation letter before February 15, 2022, to our HR Manager, Thea Scherpenborg (hrm.hrm@symeres.com). Further information on the specifics of this position can be obtained from Martin Kas, Head of R&D (martin.kas@symeres.com).

This vacancy is open for EU residents only.
