

Symeres is one of the leading chemistry CROs in Europe, with over 500 scientists at six locations (Nijmegen, Weert, & Groningen in the Netherlands; Prague in the Czech Republic; Oulu in Finland; and Södertälje in Sweden). We provide a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials. All these fields of expertise are supported by highly experienced and well-equipped analytical teams.

As part of our increasing demand for our services at our location in Groningen, we are currently looking for a skilled and enthusiastic

Analytical Scientist

Full-time

The analytical labs are service departments equipped with state-of-the-art analytical equipment like LC-(MS), GC-(MS), SFC-(MS), IR, Karl Fisher and DSC. A considerable part of the LC(MS) equipment is made available to the chemists in an open access (walk-up) environment and your main tasks will be to setup and maintain these systems. Daily you will be responsible for developing methods, preparing mobile phases, and providing technical support on software and hardware, all in close contact with the analytical team and the chemists.

As a member of the analytical team, you will also be trained and involved in a variety of other analytical activities.

Qualifications

For this position, we are looking for an enthusiastic, pleasant person who meets the following criteria:

- BSc education in analytical chemistry is required, 1–2 years of relevant experience is an advantage.
- You have affinity with technical aspects of the equipment and enjoy doing small repairs yourself.
- Knowledge of analytical method development, optimization and problem solving is an advantage.
- You are accurate, can overcome challenges, and are quality oriented.
- Good communication skills in English, both oral and written.
- You can work independently have a collegial attitude and like to work in a team.

Job offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? And do you meet the job requirements? Please send an email with your CV and motivation letter before April 22, 2022, to our HR Manager, Marga Vos, by email: marga.vosensing@symeres.com. For substantive questions, please contact our Director of Analytical Chemistry, Erik van Echten, at telephone number: +31 50 5757272.
