

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to fast international growth and increasing demand of our services at our Location in Nijmegen, we are currently looking for an experienced:

Team leader Analytical Chemistry

Full-time

Do you want to lead the Analytical Chemist team in Nijmegen (8 colleagues) and work with experienced and dedicated professionals that play a central role in making people's life better? Come join us as Team leader!

You will be the hands-on Team leader who is responsible from bringing R&D development to production development, while closely working together with chemists. You will plan & prioritize the right resources per production phase, overseeing the project pipeline of your team. This role requires you to be proactive. You will collaborate with various internal colleagues and external clients, which requires good communication skills. The Director Analytical Chemistry will be your manager.

In Symeres, you will have access to state-of-the-art analytical instruments and the freedom to innovate new ideas & techniques, whilst being part of an international growing organization.

Qualifications

- A completed PhD; Analytical Chemistry
- Preferably experience with leading a small team
- Good communication skills: share knowledge in and across teams, manage external client contact
- Good planning skills: capable of prioritizing (un)planned work or work towards clients' deadlines
- Strong team player: open mind-set, working together towards goals
- Fluency in English (written & verbal)

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.
