

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to fast international growth and increasing demand for our services at our location in Nijmegen, we are currently looking for a skilled and enthusiastic:

Analytical Chemist

Full-time

Do you want to be part of our Analytical group in Nijmegen that consists of eight experienced, highly versatile and dedicated analysts that play a central role in running projects to make people's life better? Come join us! Every day brings a new challenge: a molecule never synthesized before, a new method or technique needed to solve another problem. With the state-of-the-art equipment at our disposal, we are more than ready to tackle these problems together by sharing knowledge and collaborating for innovation.

Your day will be filled with planned and ad-hoc tasks and you work together with synthetic chemists to analyze and purify the molecules. You will have direct involvement in projects, which will require a proactive approach and excellent communication skills, both internally and externally with clients. Not only you will be trained for the role of Separation specialist; you will also have access to all available analytical techniques. Together with the help of experienced & supportive colleagues, you will develop into a top-tier, versatile Analytical Chemist.

Qualifications

- A completed BSc degree in Analytical chemistry or Chemistry
- Hands-on experience with HPLC chromatography; preparative HPLC experience is an added value
- Enthusiastic, open mind set & natural curiosity
- Good planning skills; capable of prioritize planned and ad hoc work
- Result-oriented; working towards deadlines for clients
- Excellent communication skills: share knowledge in & across teams, manage external client contact
- Fluency in English (written & verbal)

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.
