

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to fast international growth and increasing demand for our services at our location in Weert, we are looking for a skilled and enthusiastic:

AR&D Analyst

Full-time

The AR&D Analyst develops complete analytical packages, appropriate for the cGMP phase of the project, to support the development of process routes and to support production campaigns. These analytical packages may consist of sampling plans, analytical methods, and corresponding validation protocols and stability protocols, and reference standard qualification. The AR&D Analyst works in a multidisciplinary team, where chemical development and analytical development go hand in hand. The key job responsibilities will be development and optimization of analytical methods fit for the intended purpose, providing advice regarding the development of product specifications and System Suitability Test parameters, and writing analytical protocols for stability studies and validations.

Qualifications

- Minimum HBO level.
- Knowledge of analytical chemistry acquired through education and/or working experience of >2 years in a chemical industrial environment.
- Broad (practical) analytical knowledge of analytical techniques, for example, (U)HPLC(-MS), GC(-MS), titration,
 IR, NMR, ICP-MS.
- Knowledge of Good Manufacturing Practices and the directives of EHS is a prerequisite.
- Skills and ability to develop analytical methods, to carry out analysis, and interpret and report test results.

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? And do you meet the job requirements? Please send an email with your CV and motivation letter to our HR manager, Karen Storms, by email: karen.storms@symeres.com.
