

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to fast international growth, we are looking for an experienced:

Environment, Health & Safety (EHS) Specialist– interim

Full-time

Do you want to shape the EHS quality management system for Symeres worldwide? We are looking for an experienced EHS specialist to guide the local EHS teams in building and implementing the global EHS standards, compatible with the drug discovery and development services and capabilities within Symeres. The approach taken should be pragmatic, with an initial focus on high practical gain across sites, moving slowly towards a formalized global documentation system. The EHS knowledge applied must be secured at Symeres to allow further iterations of the global EHS management system to be managed with internal staff primarily.

At Symeres, you will be part of a fast-growing international organization. In this role, you will report to the Managing Director Symeres NL.

Qualifications

- Either an HBO or master's degree in an EHS-related area
- Experience in a chemical/pharmaceutical (laboratory and manufacturing) environment is an advantage
- Proven experience with EHS quality management systems
- Hands-on, pragmatic
- Experience in matrix organizations; positive team player who shares knowledge where necessary
- Strong communication mindset (result oriented), both verbally and in writing
- Be assertive and persuasive
- Strong stakeholder management skills
- Fluency in English (written & verbal); Dutch fluency is an added value

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Application
