

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to fast international growth, we are looking for a talented:

Functional Application Manager

Full-time

Do you want to make our operation run as smoothly as possible? As Functional Application Manager, you will play a crucial role within the team. You know everything about our business-critical applications, and you are at the heart of our company. You have insight into our systems and processes and dare to optimize and challenge them where necessary. Of course, you are risk/security-aware and make sure that problems are proactively addressed. Through your understanding of both the processes and your knowledge of IT, you are a bridge between Business and IT. You are responsible for the applications within your domain. In addition, you will also:

- Make sure the various applications are always available when required by the business;
- Handle queries for reporting and building dashboards;
- Analyze your problems (recurring incidents) and come up with improvement actions and proposals;
- Take responsibility for resolving incidents;
- Prepare change requests for suppliers and/or internal teams;
- Test new application versions;
- Maintain the authorization profiles (roles and permissions);
- Answer information questions and manage documentation.

In this role, you'll join a team of three colleagues. You will frequently work together with the IT team (8 colleagues). At Symeres, you will be part of a fast-growing international organization, where you will have access to state-of-the-art analytical instruments and the freedom to develop and implement new ideas and techniques.

Qualifications

- Completed BSc education; an ICT degree is a plus
- Knowledge of Exact or similar ERP solutions is a plus
- Experience with / affiliation with SQL or other databases
- Strong communication skills: posing the right question to attain the right information; work with several stakeholders and external suppliers
- Result-oriented and proactive
- Business fluency in English (reading, writing, and speaking)

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? And do you meet the job requirements? Please send an email with your CV and short motivation letter to Recruitment, Ningsih Heisterkamp, by email: HRM.HRM@Symeres.com.
