

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

To increase our capacity, the Quality Assurance (QA) Projects team at our Weert site is strengthening its team and is looking for an experienced and enthusiastic:

QA Officer Projects

Full-time

The QA Officer Projects effectively performs activities to ensure compliance with applicable current Good Manufacturing Practice (GMP) regulations, corporate policies, and site standard operating procedures. They exercise independent judgment in developing methods, techniques, and evaluation criteria for obtaining results and ensure that products which are released comply with all requirements, inclusive of internal and external regulatory requirements.

Key job responsibilities:

- Review and approve analytical method validation protocols and reports.
- Review and approve analytical methods.
- Review and approve master batch records and executed batch records.
- Release of final products.
- Review laboratory investigations.
- Write and review deviation investigations.
- Support writing/revising standard operating procedures and working instructions.

Qualifications

- Minimum of a bachelor's degree or equivalent.
- Working knowledge of cGMP in a pharmaceutical or regulated environment is preferred.
- At least 3 years' experience of working in a QA function, an R&D function, or a chemical industrial work environment (e.g., analysis, production).
- High level of autonomy, initiative, flexibility, and problem solving.
- Aware of the relevant guidelines for the function in terms of quality.
- Good written and oral communication skills (at least in English, preferably also in Dutch).
- Proficiency with Microsoft Office (Word, Excel, PowerPoint) and Electronic Document Management systems.

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Symeres

Making Molecules Matter. Together.
