

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

Due to rapid growth, the Department of Solid State in Weert is looking for an experienced

Solid-State Analytical Scientist

Full-time

In this role, you will:

- Conduct routine analysis of pharmaceutical materials using a range of analytical techniques, including liquid chromatography (LC), thermogravimetric analysis (TGA), differential scanning calorimetry (DSC), X-ray powder diffraction (XRPD), and ion chromatography (IC).
- Collaborate closely with the Solid-State Chemical Scientist to ensure accurate and timely data generation to support clinical development projects.
- Perform sample preparation and instrument calibration to ensure the accuracy and reliability of analytical data.
- Analyze, interpret, and report data, generating valuable insights to guide decision-making in the development process.

Qualifications

- MBO degree in analytical chemistry, chemistry, or a related field.
- Demonstrated experience with analytical techniques such as LC.
- Experience with solid-state techniques is a prerequisite, preferably in a pharmaceutical or research setting.
- Hands-on experience in a chemical/pharmaceutical laboratory is an advantage.
- Strong attention to detail and the ability to generate accurate and reliable data.
- Good working attitude, quality result driven, accurate, with an eye for detail and safety.
- Positive team player, sharing knowledge where necessary.
- Strong communication skills; Dutch and English fluency, both verbally and written.

At Symeres, you will be part of a fast-growing international organization, where you will have access to state-of-the-art analytical instruments and the freedom to develop and implement new ideas and techniques.

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Application

Please send an email with your CV and motivation letter to our HR Manager: karen.storms@symeres.com. For substantive questions, please contact our Director of Development: gabriella.pizzuti@symeres.com.
