

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 700 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

For our Groningen location, we are currently looking for a skilled and enthusiastic

Analytical Chemist

Full-time, Groningen, NL

Do you want to contribute to the development of new medicines? We are recruiting for an Analytical Chemist in Groningen. In this role, you will closely work with synthetic chemists to analyze and purify molecules. Through comprehensive training and hands-on experience with diverse techniques, you will grow into a confident, skilled, and adaptable analytical chemist.

The analytical group at our Groningen site consists of eight experienced, versatile, and dedicated analysts who play a central role in all ongoing projects. Each day brings new challenges – whether working with a molecule that has never been synthesized before or developing a method or technique to solve a specific problem. With our extensive set of equipment, we tackle these challenges collaboratively, sharing knowledge and expertise. In this role, you will:

- Manage routine analyses and the purification of molecules, using preparative HPLC
- Work on method development using GC-MS and LC-MS (under supervision)
- Handle a mix of planned and ad-hoc assignments simultaneously

Qualifications

For this position, we are looking for an enthusiastic person who meets the following criteria:

- BSc or MSc degree in analytical chemistry or chemistry
- Hands-on experience with HPLC chromatography; preparative HPLC is a benefit
- Self-organized, proactive, and result-oriented team player
- Strong levels of creativity, flexibility, confidence and reliability
- Excellent English verbal and written communication skills
- Customer and service oriented
- Excellent communication skills, with the ability to advise and influence both internally and externally.
- Eligible to work in the Netherlands

Job-offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

Application

Are you interested in this position? Please send an email with your CV and motivation letter to Recruitment at: recruitment@symeres.com. For substantive questions please contact our Director of Analytical Chemistry
