

Symeres is the leading mid-sized transatlantic contract research organization for drug discovery and development needs. With over 600 highly educated scientists and professionals in six locations in Europe and two in the USA, we offer best-in-class solutions for drug discovery and drug development, from small- to medium-sized molecule hits. We are large enough to matter, and small enough to care. Our services span across early stage hit finding all the way to the delivery of your early clinical drug substance API. Making molecules matter. Together.

The Quality Assurance (QA) Projects team at our Weert site is strengthening its team and is looking for an experienced and enthusiastic:

QA Officer Projects

Full-time

The QA Projects Officer effectively performs activities to ensure compliance with applicable current Good Manufacturing Practice (GMP) guidelines, corporate policies, and site standard operating procedures. They exercise quality oversight over production and analysis of batches of API (Active Pharmaceutical Ingredient) for customers.

Key job responsibilities:

- Review and approve master batch records, analytical methods, validation protocols & reports.
- Review executed batch records and completed analytical records.
- Release of packed API.
- Review deviations and laboratory investigations.
- Review CAPA's.
- Review Change Controls.
- Providing support to customer's quality related queries.
- Support writing/revising standard operating procedures and working instructions.

Qualifications

- Minimum of a bachelor's degree or equivalent.
- Experience with cGMP in a pharmaceutical or comparable environment.
- At least 3 years' experience of working in QA, production or QC.
- High level of autonomy, and skills like being pro-active, flexible, problem solving and pragmatic.
- Aware of the relevant guidelines for the function in terms of quality.
- Good written and oral communication skills (at least in English, preferably also in Dutch).
- Proficiency with Microsoft Office (Word, Excel, PowerPoint).

Job offer

An exciting position in a dynamic fast-growing organization with an attractive remuneration package and opportunities for learning and development.

Application
